

Bird Checklist of San Gerardo de Dota and surrounding areas,  
includes the Sub-Alpine Rain Páramo 3,491 m ( 11,453 feet )

**Code for location**

G ----- Widespread in the San Gerardo de Dota Valley  
S ----- Savegre's grounds, disturbed & second. forest, roadsides, river/creeks  
O ----- Primary Cloud Forest, Los Robles and La Quebrada Trails  
P ----- Sub-Alpine Rain Páramo above 3,000 meters / 9,800 feet

**Code for Abundance**

A = Should be seen on a daily basis  
B = Should find it on most days  
C = Less common  
D = Uncommon  
E = Rare  
F = Not to be expected..  
\* = Heard more than seen  
**Status: m = Migrant**
